AWARDS/PROJECTS

- Four certificates of outstanding achievement: Computer Organization, Object Oriented Software Development, Software development methodologies, Functional programming & distributed services
- Creating websites in my free time and learning new frameworks and improving one ones I've been learning,

ABOUT

I have a strong foundation in programming principles and experience in object oriented programming; developing testing and debugging code mainly in the Python language.

I am able to quickly learn new concepts and programming languages and am eager to learn the most that I can in a challenging work environment.

SKILLS

- **Git**
- **Distributed Systems**
- **Flask**
- **Data structures**
- **Algorithm design & Analysis**
- **Functional programming**
- **RESTful APIS**
- **SQL (SQLite 3)**
- **Unit tests**
- **Integrations tests**

LANGUAGES

- **English**
- **Swedish**

INTERESTS

- **Software development**
- **Web development**
- **Use of AWS & Azure**
- **Fitness**
